Top AI stories, explained in **60 seconds**.

ABOUT AIFEED.RUN

AIFeed.run is an AI news brand covering AI models, tools, industry news, research breakthroughs and product launches. Every day we pick the top AI stories and explain each one in about 60 seconds for tech professionals, entrepreneurs, developers and creators who want to know what is happening in AI and why.

Our pipeline is fully automated: AI finds and ranks the stories, writes each summary and fact-checks it against the original source, and every post names and links that source. We publish on our website, Instagram and Facebook (LinkedIn coming soon), plus a free weekly AI brief.
